Please use this form as a template for the abstract. The abstract should be between one and two pages long and include pictures and references. Please submit the abstract through the webpage of the conference in a zip-file containing the original word or latex sources and the pdf you have created. In compiling the book of abstracts we will use the pdf and only change formatting in the sources if necessary.

Blind text: Far far away, behind the word mountains, far from the countries Vokalia and Consonantia, there live the blind texts. Separated they live in Bookmarksgrove [1, 2] right at the coast of the Semantics, a large language ocean. A small river named Duden flows by their place and supplies it with the necessary regalia. One day a small line of blind text by the name of Lorem Ipsum decided to leave for the far World of Grammar. The Big Oxmox advised her not to do so, because there were thousands of bad Commas, wild Question Marks and devious Semikoli, but the Little Blind Text did not listen. She packed her seven versalia, put her initial into the belt and made herself on the way. When she reached the first hills of the Italic Mountains, she had a last view back on the skyline of her hometown Bookmarksgrove, the headline of Alphabet Village and the subline of her own road, the Line Lane. Pityful a rethoric question ran over her cheek [3].
